About OCMI, Inc.

Since 2013, OCMI, Inc., has provided project management and construction consulting services for building and infrastructure projects worldwide. Our Federal, State, and Local government work has been typically provided as a subconsultant through design professionals, such as architects and engineers. We also possess extensive experience with institutional projects (universities, colleges, schools, etc.), healthcare jobs, and private ventures. All of our experience is general engineering-related, either for buildings or civil infrastructure. Our owner and President, Mr. Ciaran O'Connor has more than 15 years of leadership experience in both the construction industry and the military. After establishing OCMI, Inc., Mr. O'Connor continues to provide his knowledge and expertise for projects all over the continental United States and abroad. Our services for this work have included the following cost, time, and quality disciplines:

- On-Site Project/Construction Management and Inspection
- Cost Estimating and Value Engineering
- Critical Path Method (CPM) Scheduling
- Constructability Analysis
- Claims and Litigation Support

Every service OCMI offers minimizes risk and adds value—from planning through post-occupancy. Protecting clients' best interests is just another reason so many industry professionals choose us as their construction management advisor.
